hemochroma PLUS

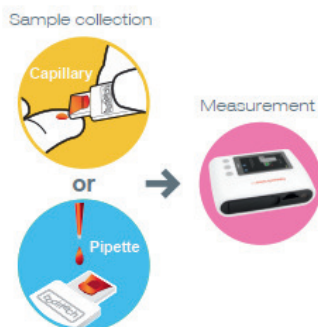

*The simplest way of testing
hemoglobin*

hemochroma PLUS

hemochroma PLUS is a handheld device that can run tests for anemia. One uses a disposable test cuvette to pick up sample blood from the fingertip. It accommodates tube bloods with a pipette. Each test takes 3~5 seconds and the user can transmit the result to a host computer.

Simple Procedure

Ideal for:

Screening anemia, mother & child centers, dialysis centers, blood donation centers, small & medium hospital & clinics, medical institutions & healthcare centers

hemochroma PLUS

Measuring the total hemoglobin concentration for anemia in the blood
